COUNCILMEMBER FRYE GIVES ANNUAL STATE OF LINDA VISTA ADDRESS

Frye discusses various issues with community members

San Diego, CA- Tonight, Councilmember Donna Frye gave her annual State of Linda Vista address to community members at the February meeting of the Linda Vista Civic Association. Frye talked about recent accomplishments and future goals for the community. The State of Linda Vista address was followed by a question and answer session in which residents had the opportunity to discuss various issues with Frye.

Frye stated, "Over the past year we have accomplished a number of goals within Linda Vista including cleaning up our streets. Through our regular community clean-up program in Linda Vista we have successfully rid our neighborhoods of over 131 tons of trash and unwanted materials in the past year alone. By working together I know that we will be able to achieve even more during the upcoming year."

Frye singled out the numerous community clean-up projects as shining examples of community members working together towards a common goal. The regularly held clean-ups have improved local canyons and parks as well as the upkeep of neighborhood streets. The program is wildly successful with Linda Vista residents.

The Morena Boulevard Storefront Improvement Program has been a success, with a number of storefront renovations currently in the works. Frye said, "The completion of the *Mex-Art* storefront is a wonderful example of what the community can expect to see in this busy commercial district." She continues to encourage eligible business owners to participate in the program.

Frye is the City Councilmember for the Sixth District of the City of San Diego, which includes the communities of Clairemont, Kearny Mesa, Linda Vista, Mission Bay, Mission Valley and Serra Mesa. She has served on the City Council since 2001.
